Hurrying, sticklike figures black against the blaze shoveled and reshoveled ore onto logs kept in a roaring blaze by great bellows, while others brought fresh logs and worked the bellows sleeves. From the apex of the dome a spiral of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the topmost vault the pure metal ran down into a stone trough or bowl-only a drop or two a day, he said, from the low-grade ores they were roasting now.. "First we must settle the matter that divides us," said the Windkey..And there are songs, old lays and ballads from small islands and from the quiet uplands of Havnor.,The sorcerer came out from behind San. His name was Ayeth. The power in him was small, tainted, corrupted by ignorance and misuse and lying. But the jealousy in him was like a stinging fire. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now.. "You can? Is it allowed? As the sun neared the western plains, they stopped at a farmhouse that offered stabling for the horses, a shed for the cart, and straw in the stable loft for the carters. The loft was dark and stuffy and the straw musty. Ivory felt no lust at all, though Dragonfly lay not three feet from him. "May I talk

to you?" he said. "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----Among all beings ever returning, hire a band. Maybe it was to escape the hunt that Medra came to Pendor, a long way west of the Inmost Sea, or maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for the city was beautiful and peaceful and the people prosperous. Nor he mine. I won't speak yours again. It looked very old. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep. the city was beautiful and peaceful and the people prosperous. I gave up. At that the wizard whose true name was Heleth stood as still as he did, looking back at him, till the boy's gaze dropped. She had planted a young rowan from the Grove beside the fountain. They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair. arrived. In a whisper the witch said, "Woman, be named. You are Irian.". Witchery was restricted to women. All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic. He came through the halls and stone corridors to the inmost place, the marble-paved courtyard of the fountain, where the tree Elehal had planted now stood tall, its berries reddening. water, the living river, forever. When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under
