They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair..When in 730 the first Archmage of Roke, Halkel of Way, excluded women from the school, among his Nine Masters only the Patterner and the Doorkeeper protested; they were overruled. For more than three centuries, no woman taught or studied at the school on Roke. During those centuries, wizardry was an honored art, conferring status and power, while witchery was an unclean and ignorant superstition, practiced by women, paid for by peasants..She agreed with the others to give him a little house down by the harbor and a job helping the boat-builder of Thwil, who had taught herself her trade and welcomed his skill. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people-and dragons-keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. Ged could force the dragon Yevaud to obey him, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false ones..The light went with her. He was alone in the dark. The Hand, a loose-knit league or community concerned principally with the understanding and the ethical use and teaching of magic, was established by men and women on Roke Island about a hundred and fifty years after Maharion's death. Perceiving the Hand as a threat to their hegemony, the mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But the Hand had already stretched out to other islands all around the Inmost Sea. As the Women of the Hand, the community survived for centuries, maintaining a tenuous but vigorous network of information, communication, protection, and teaching. . . . him to her in the evenings. Small islands and villages are generally governed by a more or less democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds. "To learn," the boy whispered. . . . The Doorkeeper looked at her for what seemed a long time. Then it is your name," he said. "But maybe not all your name. I think you have another." The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard with a staff and a grey cloak, trained on the Isle of the Wise, and so the Master of Iria of Westpool got himself a wizard from Roke. He was surprised how easy it was to get one, if you paid the price. . . . It was difficult to feel uneasy in an ordinary-looking town on a sweet spring morning, but in such silence he must wonder if he was indeed in a plague-stricken place or an island under a curse. He went on. Between a house and an old plum tree was a wash line, the clothes pinned on it flapping in the sunny breeze. A cat came round the corner of a garden, no abandoned starveling but a white-pawed, well-whiskered, prosperous cat. And at last, coming down the steep little street, which here was cobbled, he heard voices. "Medra," she said. Her sore mouth could not speak clearly. He knelt down and took her hands. . . . "I said you have a strength in you, a great one," the witch said from the darkness. "And you know. So they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?".
