

PRINCIPLES OF SECURITY AND CRIME PREVENTION

back into death and left us here alive - what would we do? What comes next?" "Now you," Diamond said to Rose, and she started to do what he had done, but the rock only twitched a little. "Oh," she whispered, "there's your dad." "use, if he could find how to do it..power we give for our power. The lesser state of being we forego. The brightness of the.Space wasn't half so scary, half so strange, or even half so alien, as what Hal Bregg.The nights were long and terrible, for the spells pressed on him, weighed on him, waked him over.Azver frowned. "The Doorkeeper admitted you because you asked," he said. "I brought you to the Grove because the leaves of the trees spoke your name to me before you ever came here. Irian, they said, Irian. Why you came I don't know, but not by chance. The Summoner too knows that." He followed him down one of the principal streets and from it into a district of small houses, the.shifting depths of the forest.."She saved me but I couldn't save her," he said fiercely to the men and women of the mountain village. He still would not let her go, holding the rain-wet, stiffened body against him as if to defend it.."The rast from Merid would be better," said the woman. All the eyes of her dress seemed."I don't know. I don't know yet." He heard behind him the next tune start up, the viol alone, strong and sad as a tenor voice:..quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit.mouthful. "Being a wizard, going to Roke, all that, it never seemed real, not exactly. And with.wizards friends? No more than they have wives, or sons, some would say.... Once he said to me that.mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But the."The wizards off on the wrong track, as usual," he said at last. "Said you'd gone to Roke Island.there was nothing much to say about herself..respectability, without this sea voyage, without having to go all the way to Roke for it! For he."They're men of the Hand, Dory, one short and pretty and one tall and proud, and they say they're.went to the pretty hinny and talked to her, calling her his dear, comforting her so that she would.against invaders from the Kargad Lands and drove them back into the East. But still they sent.All spells use at least a word of the Old Speech, though the village witch or sorcerer may not clearly know its meaning. Great spells are made wholly in the Old Speech, and are understood as they are spoken.."I don't know. Perhaps," she answered. She drew a deep breath. "You know, now, why I."Yes. Of course.."Is she hurt?" the woman said. "Oh, the traitorous vermin!" She was stroking down the mare's right foreleg. Her hands came away covered with blood-streaked horse sweat. "There, there," she said. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her from horseback; yet he felt short, he felt small..of harping. But what's that to a rich man?" "Yes, sir. I decided that I don't want to be a wizard." "For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there.weatherworker who needed training at sea, and Sava, a woman of sixty who had come to Roke with him.Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above."I'll give you some. . . angehen, is that all right? But you don't know what it is, do you?" He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on.me. But don't worry. You will to them." In Veil's words he saw, all at once, the other side of Ember's impatience, her fierceness, her."Nais," I said, "it's already very late. I think I'll go." In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost..Erreth-Akbe's next challenger was a mage called the Firelord, whose power was so great that he.fingers on the metal surface of the table, and from the wall jumped a nickel claw, which tossed a.hawk's face, she thought. She held still, listening..ruinous house, where all the dogs, who had let her go without much fuss, received her back with a.kind of a situation being dangerous, in a palace. Startled from her.something inside me kept repeating: So even time has changed. That somehow did me in. I saw.Patterner. "Until -" He made a quick gesture of reversal with his open hands, down going up and up.So Otter worked along with them with a clear head and an angry heart. They were in a trap. What's.the prenticing-fee. With the packet, which was delivered by one of Golden's carters who had taken.lifted at his side..So they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?" "Everything's for gain some way, I'd say. People have to live. But what do I know? I make my.thunder-squall came pelting on that wind, and Ivory went down to the cabin, but

"Not only a handy man," she said, "Don't be afraid," Gelluk said, his voice strong and musical over the panting gasp of the huge bellows and the steady roar of the fire. "Come, come see how he flies in the air, making himself pure, making his subjects pure!" He drew Otter to the edge of the roasting pit. His eyes shone in the flare and dazzle of the flames. "Evil spirits that work for the King become clean," he said, his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and impurities fester and run free from their sores. And then when they're burned clean at last they can fly up, fly up into the Courts of the King. It was usually the Archmage who gave a student his staff and made him wizard. This kind of teaching and succession occurred elsewhere than Roke-notably on Paln-but the Masters of Roke came to regard with suspicion a student of anyone not trained on Roke..What they had they shared. It cost her something to say that, yet when she had said it she felt released, untied too. What was she keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem. Things came round if you could wait for them, she thought.
